WHAT TO EXPECT FROM COUNSELING

Counseling is an individually tailored process that is designed to assist you in dealing with your concerns, coming to a greater understanding of yourself, and using effective means of coping which utilize personal and interpersonal resources.

The counseling relationship usually involves sharing personal information with your counselor which may at times be sensitive, very private, or even distressing. Therefore, it is not uncommon during the course of counseling to feel somewhat more anxious or upset for a time. If you should feel this way, it is important to share this information with your therapist. While the outcome of counseling is most often positive, the degree to which any particular individual will reach their goals or achieve their desired level of satisfaction depends on the patient's particular situation.

At your Intake appointment (the first time you meet with your therapist), you and your therapist will review the concerns you came in to discuss and will consider these in light of your personal history and life experiences.

You and your therapist will clarify, in the first or second session, the goals of your counseling, and the options available to you, and create a plan for achieving your goals. If you have any questions, please ask. It is important that you feel comfortable about what you do with us here. Although we will make treatment recommendations, and we will try to be as clear as possible in explaining our recommendations, we want to emphasize that, unless it is an emergency, the decision about whether or not to proceed is yours. We are not medical doctors and we do not prescribe medication.

Please feel welcome to give us feedback on your experience here. We want it to be as helpful and positive as possible.

INSTITUTE FOR PRACTICAL LIFE INFORMED CONSENT FOR TELEHEALTH SERVICES

Definition of Telehealth
Telehealth involves the use of electronic communications to enable IPL mental health professionals to connect with individuals using interactive video and audio communications.
Telehealth includes the practice of psychological health care delivery, diagnosis, consultation, treatment, referral to resources, education, and the transfer of medical and clinical data.
I understand that I have the rights with respect to telehealth:
1. The laws that protect the confidentiality of my personal information also apply to telehealth. As such, I understand that the information disclosed by me during the course of my sessions is generally confidential. However, there are both mandatory and permissive exceptions to confidentiality, including, but not limited to, reporting child, elder, and dependent adult abuse; expressed threats of violence toward an ascertainable victim; and where I make my mental or emotional state an issue in a legal proceeding. I also understand that the dissemination of any personally identifiable images or information from the telehealth interaction to other entities shall not occur without my written consent.
2. I understand that I have the right to withhold or withdraw my consent to the use of telehealth in the course of my care at any time, without affecting my right to future care or treatment.
3. I understand that there are risks and consequences from telehealth, including, but not limited to, the possibility, despite reasonable efforts on the part of the counselor, that: the transmission of my personal information could be disrupted or distorted by technical failures, the transmission of my personal information could be interrupted by unauthorized persons, and/or the electronic storage of my personal information could be unintentionally lost or accessed by unauthorized persons. IPL utilizes secure, encrypted audio/video transmission software to deliver telehealth.
4. I understand that if my counselor believes I would be better served by another form of intervention (e.g., face-to-face services), I will be referred to a mental health professional associated with any form of psychotherapy and that despite my efforts and the efforts of my counselor, my condition may not improve, and in some cases may even get worse.
5. I understand the alternatives to counseling through telehealth as they have been explained to me, and in choosing to participate in telehealth, I am agreeing to participate using video conferencing technology. I also understand that at my request or at the direction of my counselor, I may be directed to "face-to-face" psychotherapy.

6. I understand that I may expect the anticipated benefits such as improved access to care and more efficient evaluation and management from the use of telehealth in my care, but that no results can be guaranteed or assured.
7. I understand that my healthcare information may be shared with other individuals for scheduling and billing purposes. Others may also be present during the consultation other than my counselor in order to operate the video equipment. The above-mentioned people will all maintain the confidentiality of the information obtained. I further understand that I will be informed of their presence in the consultation and this will have the right to request the following: (1) omit specific details of my medical history that are personally sensitive to me, (2) ask non-clinical personnel to leave the telehealth room, and/or (3) terminate the consultation at any time.
8. I understand that my express consent is required to forward my personally identifiable information to a third party.
9. I understand that I have a right to access my medical information and copies of my medical records in accordance with the laws pertaining to the state of New Jersey.
10. By signing this document, I agree that certain situations, including emergencies and crises, are inappropriate for audio/video/computer-based psychotherapy services. If I am in crisis or in an emergency, I should immediately call 911 or seek help from a hospital or crisis-oriented healthcare facility in my immediate area.
11. I understand that different states have different regulations for the use of telehealth.
